Subject: Dinner at home and in the Meadow Cupboard.

People:

Joseph, Clifford and Rahel. We used to go to eat at the Meadow Covert quite often. It may have been Joseph who first called it the Meadow Cupboard or it may have been me but it stuck for many years. The EXIF data showed a date in 1919, two years before Joseph was born. Joseph's shirt and teeth give it away though, it is either late 2002 or early 2003. I don't know where I got the 1st from but it does seem quite likely. The first shots of Joseph show him in our high chair. We never took the high chair out with us so it could be a different day or maybe he got two bites of the cherry. The times are guestimates based the first frame which must be shortly before sunset as the sun is in the West.

Dates:
